

Protect Your Most Important Customers

Poor air quality puts your most important clients, the animals, at risk during their stay at your facility. Our air cleaning system protects against Kennel Cough, canine influenza, distemper, coronavirus, bordetella, feline calicivirus & other pathogens.

Air-Vac's M-11uv On Guard for you 24/7

Prevents & Destroys

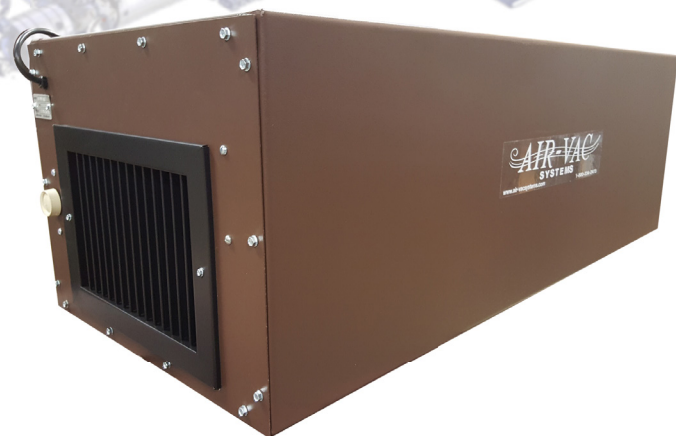

- Bacteria & Viruses
- Fungal Infections
- Heavy Odors
- Dander
- Dirt
- Dust • Allergens
- V.O.C.'s
- Mold

This NASA developed air purification technology is the most powerful on the market. The M-11UV is our air filtration unit of choice for animal care facilities.

The system operates safely effectively killing biological contaminants like, mold, bacteria and viruses- airborne and on surfaces like countertops. Will also neutralize heavy odors while removing heavy dander, dust and dirt from the air you breathe.

Air-Vac M-11uv
